Job-Beschreibung

Level up!

Nintendo Co., Ltd., headquartered in Kyoto, Japan, has been providing a wide range of entertainment products and experiences since its founding in 1889, beginning with the manufacture and sale of Hanafuda playing cards. Since the 1983 release of the Family Computer (Famicom) system in Japan, and continuing through Nintendo Switch 2, Nintendo's focus has been the development, manufacturing, and sale of its gaming systems and software.

At Nintendo, we bring together employees with a wide range of characteristics and work together towards a common goal – to put smiles on the faces of people all over the world.

Tasks

- Supporting month-end closing activities with a clear focus on inventory accounting, inventory valuation, and operational cost structures across Supply Chain, Operations, and After Sales.
- Ensuring high-quality data in SAP and helping improve the accuracy and consistency of our financial reporting.
- Providing detailed financial analyses for operational topics, business initiatives, and cross-functional improvement projects.
- Leading budgeting and forecasting cycles for Supply Chain, Operations, and After Sales, ensuring transparency and reliable, meaningful planning.
- Turning financial results into clear, actionable insights that support informed decisions and drive performance.
- Challenging existing processes and structures and look for ways to simplify, automate, and digitalise.
- Identifying inefficiencies and reducing low-value activities through data-driven problem solving.
- Supporting ongoing improvement efforts within the controlling landscape by being collaborative, curious, and open to new approaches.

Requirements

- University degree in Finance, Accounting, Business Administration, or a related field.
- Several years of experience in Controlling, Finance, Accounting, or Audit.
- Strong SAP knowledge and the confidence to work with complex datasets and question existing system setups.
- Advanced skills in Microsoft tools, especially Excel, Power BI, Power Query, and PowerPoint.
- A structured, analytical, and solution-oriented working style, with the ability to interpret financial data quickly, spot patterns, and get to the core of business drivers.
- A hands-on and collaborative mindset, strong communication skills, and the confidence to work with stakeholders across different functions.
