Job description

As our new **Game UI Artist (Unity 2D)**, you will create **aesthetic and functional user interfaces** for our mobile and social games. Join our diverse, creative, and engaging team. You will work closely with our talented and passionate artists as well as with other teams, including game design and development, to bring our games to life and make them accessible to our players globally.

The passion for creating high-quality games and the focus on a superior customer experience have made GameDuell **one of the largest cross-platform games communities** in the world. Since 2003, more than 130 million players have played with us. GameDuell offers a broad portfolio of over 40 casual online skill games, developed mostly in-house.
