Form of Employment

full time

☐

What We Offer

- Work with a small, young, and dynamic team in the heart of Berlin.
- Experience creative freedom and the joy of experimentation.
- Be part of one of the most successful app studios in Germany.
- Develop a product that thousands of people are using at any given time.
- A relaxed working atmosphere, flat hierarchies and short decision-making processes help you to deliver the best possible results.
- We work with flex time.
- Drinks and a fruit basket are included free of charge.

☐

Area of Responsibility

- You will work closely with the development team to build and maintain our backend as well as other smaller server-side tools.

Page 2 of 3

You have several years of professional experience in backend development.

- Very good knowledge of MySQL, PHP.
- Experience in the (test-driven) development of high-performance, multilingual web applications.
- Sense for performance and optimization.
- You have a very good command of English, as English is the team language.

☐

Nice to Have

- Experience with an additional programming language such as Java, JavaScript, or Python would be an advantage.
- Experience in test automation with relevant frameworks would be an advantage.
- Professional experience in the mobile or games industry.
- Good German skills are an advantage.
