Job description

About the Project:

Battle of Edin is an upcoming real-time strategy game with base-building, unit production, resource systems, and tactical combat. The game is developed in Godot 4.

Your Responsibilities:

- Implement RTS gameplay systems (units, pathfinding, AI, combat, buildings, production).
- Build UI systems (HUD, unit selection, minimap, hotkeys).
- Optimize performance for PC and mobile targets.
- Work closely with our designers and artists to integrate assets and mechanics.

Games-Career.com is a service provided by:

Requirements:

- Strong experience with Godot 4 (GDScript or C#).
- Knowledge of RTS mechanics: pathfinding, unit logic, formation movement, selection boxes, isometric camera.
- Experience with 2D or 2.5D game development.
- Good problem-solving skills and ability to be self-driven.

Nice to Have:

- Experience shipping a game in Godot.
- Networking knowledge for multiplayer (optional).

Location: Remote or On-site (Germany)

Employment Type: Full-time

How to Apply:

Please send your portfolio + CV to: battleofedin@gmail.com
