Job description

With a small and dedicated team, we are currently working on a first-person tactical co-op game using Unreal Engine 5. The game features a realistic, military-focused setting with a strong emphasis on simulation and tactical gameplay.☐

We are searching for an Unreal game developer intern (Pflichtpraktikum / mandatory internship) who is motivated to contribute to the success of our game development.

☐

Join the Core Squad

- We will provide working task guidance with daily meetings, making sure you can

onboard easily in a distributed team environment
- Work on a tactical FPS using Unreal 5 accompanied by dedicated teammates embracing the genre
- You have a registered residence in Germany and the internship is a mandatory part of your studies

☐

Shape the Battlefield

- Help develop a four player co-op multiplayer tactical shooter with focus on PvE
- Work with unreal engine 5 and blueprints
- Integrate UI and SFX
- Work with animation blueprints
- Test the game help re-producing bugs

☐

Are you Combat Ready?

- You like FPS and even more love to build them
- First experience using Unreal Engine and Blueprints
- A portfolio of your private/ hobby/ study projects that shows your skills and versatility (no portfolio = no review)
- Self-organized and active, with a willingness to learn new tech or methods
- Good understanding of vector- and quaternion mathematics
- A strong feel for what players connects with

☐

Force Multipliers

- German native speaker
- Located in Bavaria, Germany
- Worked on shooter games / mods before

☐

Establish Uplink

If you think you are matching most of our criteria we are excited to hear from you and discuss your potential internship. We can offer you a place to test your skills and add valuable input to our game production.
